Show and Tell

Our theme for show and tell this week is a farm crop. Your child may bring an example such as soybeans, corn, hay, wheat, milo etc. or draw a picture of one. Please have your child share with the class on his/her show and tell day.

Reading:

We continue working on our Animated Alphabet. We have learned the letters and sounds for A and D. The students can now read the words **map & dad**.

The new word from our reading series is- **my**. I will be sending home flash cards for you to practice with your child at home. These cards are on a ring. **Please send them back on Thursday so new words can be added.**

Thanks!

The students made their own "The" book to practice their reading skills. They have also been reading the farm counting book and are highlighting the word "the".

Math:

The class graphed ducks and logs. We were also introduced to tally marks. We are also practicing the numerals 7, 8, 9, & 10.

Special Project:

We painted a muddy pig. The students learned lots of facts about pigs.

Science:

The class is learning about animals that live on the farm and the name of their babies.

Writing:

We are working on writing our first name beginning with a capital letter and the rest of the letters small. The students then drew a "Me" picture to share with the class.

Have a great weekend!
